18 - What did you like about the course and/or instructor, Amy Cicchino? Please give examples.	
Response Rate	10/19 (52.63%)
<ul style="list-style-type: none"> • What I like about the course is that even though it is not my favorite subject I like how engaged and motivated I am to do the projects. The reason behind this is for my instructor Amy Cicchino who interacts with us, helps us when we need the help, and understands us. • What I loved about Mrs. Cicchino was that she was always alert during class and kept us alert as well. she always demonstrated a great deal of respect towards us and we gave her the same in return. Failure wasn't an option for her students in Mrs. C's eyes i could tell because she worked with us beyond what her job description probably requires her to do. she connects with us on a social level as well as an educational level and i appreciate her being my ENC 1101 professor. I learned a took so much from out of this class i wish i could have taken another course with her, but the course she will be teaching in the fall is not for freshman but overall she is great! • Amy helped me with the struggles that I had faced in this course and made sure that I understood everything. • I loved the course because I love my instructor. She made me feel comfortable in class, which made get out of my shell to participate and ask questions. Mrs. Cicchino is one of those teachers who remind you to never give up, that you are here for a reason. She made my first six weeks of college amazing! Writing, or as Mrs.Cicchino likes to call it, composing because easier for me, but whenever I was experiencing trouble I knew she would make time to answer my questions. Mrs.Cicchino has prepared me for ENC 2135, helping us adapt to researching, citing, and looking into databases. • Ms. C is by far the best English teacher I have ever had. One of her best qualities is her patience and dedication to her students. Her student involvement throughout her class lecture allows us to be connected with what we are learning. She also encourages class discussions where we express our ideas about certain topics and allow us to have a wider view of things. Overall she lectures in a way where every students steps out of the class knowing that they understood the lecture and knows how to do the assignments. She is truly passionate about her Job and like she once when we asked her what her professional dream was she said, "I've always wanted to teach college students, so basically I am living my dream. You guys are the dream right here." She truly loves her job and all the students love her as a professor. • Learning how to write in different genres as well as writing a proper research paper with correct citations. • How helpful the instructor is, and how open to Ms. Cicchino is to what she expects from you. • What I liked about the course was that it made me come out of my comfort zone and learn to think critically and use different materials to do a few projects. What I liked about my instructor was that she was willing to listen and help me when I didn't understand the topic that we were discussing. • I liked how Ms. Cicchino was so helpful and really took the time out of her day to make sure we were on the right track and getting good grades in her class. She really taught us how technology and writing was a connected topic and how they go together. • I loved how she gave constructive criticism on every thing we did. 	

19 - What aspects of the course and/or Amy Cicchino's instructional methods should be improved? Please give examples.	
Response Rate	9/19 (47.37%)
<ul style="list-style-type: none"> • Nothing should be improved. She is doing everything right. • in my opinion she's great she doesn't need to improve. • I don't think anything needs to improve. • Nothing can be improved, I honestly believe that Mrs. Cicchino and her instructional methods are just perfect. • None. She is an astonishing teacher. • In my opinion, nothing needs to be improved since everything taught and learned has been the best. • Nothing. Everything for me was perfect. Even though it was a lot of work, she made it interesting and explained very well. • N/A • I do not really feel anything about her methods should change because she was very effective and also helpful if you did not understand the assignment and she would always look for ways to the lesson to make sense in ways we could relate. 	

20 - Please list additional comments and/or suggestions.	
Response Rate	4/19 (21.05%)
<ul style="list-style-type: none"> • N/A • I really hope she teaches mac 2035. • Everything learned from this class are materials and knowledge needed for my later years and I am so thankful for the help received. • N/A
